

Mitchell Associates Architects

Public Safety Design

Award winning fire station design, planning and construction services

## Welcome to Mitchell Associates Architects

Dear Friend,

If you are planning to attend the Firehouse Expo in Baltimore on July 22-27 in Baltimore, please use the link below to obtain free passes.

We will be exhibiting at booth 2600 and will also be making two educational presentations sponsored by Firehouse Expo:

### The Firehouse Expo, Baltimore, MD

[www.firehouseexpo.com](http://www.firehouseexpo.com)

**Presentation:** *"Programming: The Most Important Step in Creating Your New Fire Station"* - July 24, 12:00 PM.

You will learn to use the design program to thoroughly define your needs with techniques specific to fire stations. With a written description, room diagrams, spreadsheet, and a preliminary construction budget, you will significantly increase the quality of your design and minimize the chance of saying "I wish we had thought of that."

**Presentation:** *"The Bond Vote - Maximizing Your Chances for Success"* - July 25, 8:30 AM.

You will learn how to increase your chances of success, using methods that have been developed over 13 years. Failing to get voter approval can be the end of your project. A bond referendum is like any election. You do not need a mandate, only to win by at least one vote.

### Free Exhibit Hall Admission

Mitchell Associates Architects invites you to:  
Firehouse Expo, July 22-27, 2008 in Baltimore, MD.

Mitchell Associates Architects would like to invite you to visit the Firehouse Expo exhibit hall for FREE!
